## 1: Product Introduction

### 1.1: Specifications

Scan window:	45mm (L) *45mm (W)
Dimensions:	130mm (L) X 80mm (W) X 90mm (H)
Weight:	350g Weight
Light Source:	LED light
Scan mode:	CMOS
Decode Capability:	2D Barcode: QR Code; Option: DM Code
Scan Rate:	30 scans/sec
Scan Direction:	360 angle
Read Confirm:	Auto read, beep confirmed
Scan method:	Put on scan window
Image Sensor:	CMOS 640*480
Interface:	USB
Power:	No
System request:	Windows 2000, Windows XP
Processor:	Pentium II 500MHz (MIN.)
If support third parts develop:	Yes

### 1.2: Advantage

- \*Cost-effective: Most cost-effective 2D barcode reader
- \*High-effective: With light lobes, it could scan in different kinds of environment
- \*Support integration: The interface of the integrate is simple to use
- \*Simple Operation: Just put 2D barcode to the scan window, it will read the barcode data automatically.

### 1.3: Use

- \*Apply to 2D barcode solution of mobile phone
- \*Apply to e-ticket, e-coupons, e-card solution
- \*Apply to 2D barcode solution of chain shops such as entertainment, supermarket, and restaurant
